PARQET

ONLY FLOORS, NO BULLSHIT!

With Parquet, you choose warmth, ambiance, and the authentic look of real wood. Our oak floors combine timeless design with sustainable craftsmanship and complement both modern and classic interiors. Parquet evolves with your home and remains beautiful for generations. With a variety of selections, finishes, and patterns, you can make every space unique.

Discover how pure and cozy living can be with real wood under your feet.

WHAT IS MULTI-LAYER PARQUET?

With a hardwood floor, you bring a touch of nature into your home. Wood is a living material that reacts to temperature and humidity - and that's what makes it both beautiful and challenging.

That's why Parquet chooses engineered hardwood: a clever construction of **multiple layers** of wood that combines the strength of solid wood with much greater stability.

HOW IS MULTI-LAYER PARQUET CONSTRUCTED?

Each plank consists of:

- 1 A **3 mm premium top layer** of high-quality oak
- 2 A **stable core** made of fast-growing wood species
- 3 A backing layer made of **fast-growing wood species**

The result? A floor that looks authentic, but is stronger and more reliable than solid hardwood flooring - even with wider and longer planks.

THE BENEFITS OF MULTI-LAYER PARQUET

- ✓ **Exceptional stability**
The wood remains beautifully flat, even under varying indoor conditions. No unwanted warping or cupping.
- ✓ **Ideal for new construction and renovation**
Parquet is available in various thicknesses to ensure a perfect fit with existing floors.
- ✓ **Perfect for use with underfloor heating**
The lower thermal resistance ensures optimal heat transfer and long-lasting comfort.
- ✓ **Quick, hassle-free installation**
Can be installed as a floating floor or glued down. Hiring a professional is always best, but a handy DIYer can handle it too. The 10mm floors must be glued down.
- ✓ **Suitable for any room**
Even kitchens and bathrooms can be clad in wood - provided they have the right finish and are properly maintained.
- ✓ **Sustainable and repairable**
The top layer can be sanded down and renewed multiple times. Your floor evolves with your interior and will last for decades.
- ✓ **Respect for nature and raw materials**
By using less hardwood and working with fast-growing species, Parquet significantly reduces its ecological footprint.

- ✓ **A world of styles**
From sleek and modern to warm and rustic: countless wood selections, widths, and finishes. The perfect floor for every style.
- ✓ **Easy to maintain**
With the right care, your floor will stay as good as new: clean, protect and enjoy.
- ✓ **A quality floor for every budget**
You get the look and feel of solid wood, but at a more affordable price and with greater stability.

Suitable for underfloor heating and underfloor cooling

Our wood comes from sustainable forestry

Our floors are made of 100% wood

Stable

100% recyclable

Fire-resistant CFI-S1

Easy maintenance

Our floors feel comfortable and warm to the touch

PLANKS

& WOOD GRADES

Our planks are **available in various sizes**, allowing you to achieve your desired look. From wide and long planks for a calm, understated look to narrower sizes for a more playful effect - this way, you can perfectly tailor every floor to your style and space.

14 X 120 X 600MM

1

2

3

4

We offer four carefully curated collections, each based on the **wood's grain pattern**. From an extremely sleek and uniform appearance without knots to a more rustic look in which natural features such as knots and cracks remain visible. Each collection has its own character and charm, so you can always choose a floor or finish that perfectly matches the desired style and atmosphere of your space.

All of our collections feature a **3 mm oak top layer** and are finished with a **UV lacquer finish**.

THE VINTAGES

MEET OUR WORLD

THE PURES

- 3 mm oak top layer
- Sleek and virtually knot-free oak parquet
- Small, healthy knots up to +/- 10 mm and tannin streaks are occasionally permitted
- 99% sapwood-free
- Fairly uniform in color
- UV lacquer finish

THE NATURALS

- 3 mm oak top layer
- Soft and slightly rustic oak parquet
- Healthy knots up to +/- 30 mm, dead knots up to +/- 20 mm & 2 per plank
- Sporadic tannin streaks and limited filled cracks and splits are permitted
- 99% sapwood-free
- Limited color variations
- UV lacquer finish

THE VINTAGES

- 3 mm oak top layer
- Subtly aged oak parquet
- Healthy knots up to +/- 50 mm, dead knots up to +/- 40 mm
- Filled and open (end) cracks with a maximum width of +/- 12 mm
- Slightly retouched sapwood up to +/- 10 mm
- Natural color variations
- UV lacquer finish

THE AUTHENTICS

- 3 mm oak top layer
- Characterful rustic oak parquet
- Healthy knots up to +/- 50 mm, dead knots up to +/- 30 mm
- Filled (end) cracks with a maximum width of +/- 8 mm
- Slightly retouched sapwood up to +/- 10 mm
- Natural color variations
- UV lacquer finish

THE PURES

SLEEK AND VIRTUALLY KNOT-FREE OAK PARQUET

Carefully selected, virtually knot-free, and **99% sapwood-free** for a calm, high-quality look with a subtle natural touch.

The Pures provides the ideal, timeless foundation for any interior.
